Forest Service

TITLE: Arctic National Wildlife Refuge Visitor Study

OMB CONTROL NUMBER: 0596-NEW

SUMMARY OF COLLECTION: The Wilderness Act of 1964 directs that the National Wilderness Preservation System be managed to protect natural wilderness conditions and to provide outstanding opportunities for solitude or primitive and unconfined types of recreation. To help meet Federal agencies' mandates related to recreation, scientists at the Aldo Leopold Wilderness Research Institute periodically monitor and report to managers and the public, visitor use and user characteristics and visitor feedback on management actions on federal lands, including National Wildlife Refuges.

NEED AND USE OF THE INFORMATION: This study will only ask recreation visitors questions about their recreation visit, their personal demographics relevant to education and service provision, and factors that have influenced or are likely to influence their recreation visits. Agency personnel will use the collected information to ensure that visitors' recreational activities do not harm the natural resources of the refuge and that wilderness-type recreation experiences are protected. The collected information will help managers continue to adapt their current programs to changing societal interests and needs; and meet the intent of the legislation that created the Arctic National Wildlife Refuge.

TITLE: Environmental Justice and the Urban Forest in Atlanta, GA

OMB CONTROL NUMBER: 0596-NEW

SUMMARY OF COLLECTION: Environmental justice is defined by the Environmental Protection Agency as the “fair treatment and meaningful involvement of *all* people...with respect to the development, implementation, and enforcement of environmental laws...” This information collection addresses environmental justice in urban settings. Cities are often (though not always) places of particular concern for environmental justice inquires due to the greater concentration of environmental pollutants and human populations. The following statutes and regulations are relevant to this request for information collection: Executive Order 12898, Memorandum of Understanding on Environmental Justice and Executive Order 12898, National Environmental Policy Act of 1969 (PL 91-190), the Civil Rights Act of 1964 (PL 88-352).

NEED AND USE OF THE INFORMATION: The proposed study provides an integrated approach to assessing residents’ relationship to the urban forest. The collection addresses environmental justice from the perspective of urban trees; and how this resource may contribute to environmental justice in a given community or neighborhood. The agency will use this information to determine whether their programs, policies, and activities have disproportionately high and adverse human health or environmental effects on minority populations and low-income populations. If the information is not collected, efforts at the federal level to evaluate

environmental justice will remain limited to methodologies that reproduce incomplete assessments of environmental justice.
